### RIESLING

When we talk of German riesling we often think of how sweet it is, what's often forgotten is the fact that riesling is high in acidity and needs some sugar for balance. When balanced perfectly the wines are stunningly aromatic, refreshing, complex and majestic.

## JURA

---

### JURA & JURA INSPIRED

One of the intriguing things about Jura wines is the technique of *sous-voile*, or *under-the-veil* wine making, a style in which wine is intentionally oxidised. The barrels are not entirely filled to begin with and then are not topped up as the wine evaporates and seeps into the wood. A beneficial layer of yeast (the veil) is encouraged, somewhat akin to the *flor* in Sherry. Handled well, the resulting wine is utterly mouth-watering flavours of perfumed fruit with underlying nutty tones.

## DOMAINE PRIEURE-ROCHE, GRAND VINS DE BOURGOGNE

*Vignerons, Henry Frederic Roch and Yannick Champ certainly don't consider themselves wine 'makers' as such, but rather custodians who manage a natural process. In humility, they allow their Grand Vins de Bourgogne to develop and express the terroir and vines from where they're born all the while protecting the developing beverage from any risks that may lead to an unbalance. Proudly, they defend the tastes born of their soils, since originality in a wine is to be enjoyed just as its vintage dictates.*
